Brief Applications

Reception Area

With the Octopus Spartan, frontdesk receptionists easily manage the main entrance door and meeting rooms from their desk, regardless whether there is a PC installed at their desk or not.

Retail Shop

The Octopus Spartan is very suitable for retail shops as it provides the essential security and surveillance system and at the same time with lighting control. The lighting control can be configured to function as security lights. Shop owners can now monitor their shops in the comfort of their homes or even from overseas.
